

VITANICA® ~ GREEN TEA

Research on green tea reveals it to be rich with antioxidant activity, supportive of breast health and healthy immune functions; our capsules feature the synergy of the standardized extract and the traditional whole leaf powder.

Featured Ingredients:

- **Green tea** polyphenols (catechin, epicatechin, epicatechin gallate, epigallocatechin gallate and proanthocyanidins) promote significant antioxidant activity as well as antioxidant enzyme activity
- Each capsule contains 300 mg of polyphenols and is equal to 3 cups of green tea, a traditional daily dose for Japanese adults
- Studies have shown EGCG (epigallocatechin gallate) to maintain healthy cell growth, promote apoptosis and support the regulation of gene expression
- **Green tea** also appears to promote thermogenesis, making it a nice addition to any weight management protocol

Indications: This incredible herb can be used in a variety of health supportive protocols where antioxidant activity is desired; promotes overall healthy cellular function.

Suggested Use: 1 capsule, up to three times daily.

Size ~ 60 caps; UPC code ~ 7-08118-01185-6
