

# VITANICA® ~ V-HYDRATE™

Utilizing the humectant properties of hyaluronic acid, this soothing suppository offers relief and hydration for vaginal tissues. Formulated by Dr. Tori Hudson with plant-based hyaluronic acid, aloe leaf juice and Vitamin E.

## Featured Ingredients:

- **Hyaluronic acid (plant-based)** is a compound molecule capable of holding several times its own weight in water and moisture – it offers temporary and hydrating relief to the vaginal tissues
- **Aloe Leaf Juice** offers additional hydration, quenching thirsty tissues
- **Vitamin E** is soothing and comforting to dry skin and adds to the relief of this unique vaginal care suppository
- Menopause is a common time for women to want hydration for vaginal tissues; this is a natural solution for women of any age who need soothing comfort from nature.

**Indications:** Offers hydrating and soothing relief for vaginal tissues, utilizing all natural ingredients from the brand women trust.

**Suggested Use:** Insert One (1) suppository into the vagina, in the evening, up to three times per week.

Size ~ 24 suppositories; Item code ~ 7-08118-01338-6
